TABLETMEDIA JOINS THE ACCELENT ALLIANCE PROGRAM
Working together to provide solutions for devices of tomorrow

SAN FRANCISCO, CA and AKRON, OH (March 25, 2003) – Forging a new connection in the embedded device market between Accelent Systems Inc. and TABLETmedia, Accelent Systems Inc. announces today that TABLETmedia is an Accelent Alliance member. Accelent Systems established the Accelent Alliance, a community of companies offering products and services to the embedded device market that support the Microsoft® Windows® CE.NET and Pocket PC Software. The power behind Accelent Systems' new alliance program enables the members to get a "jump start" on emerging applications – without the overhead of additional resources.

"TABLETmedia is a great addition to the Accelent Alliance," according to Albert McCabe, EVP of Sales and Marketing for Accelent Systems. "TABLETmedia is committed to excellence. IFon is the most advanced VoIP and video conferencing application for wireless mobile devices. By presenting solutions, such as TABLETmedia's cutting edge technology, we are able to meet our customers needs which is our primary objective."

"By becoming an Accelent Alliance member, we are able to present our solution during the early phases of a product's development cycle which is invaluable, states (TABLETmedia contact name and title). "Accelent Systems provides customers with a means, through their system software, development platforms and professional services, to bring devices to the market at less cost and risk than traditional development methods. By teaming up with Accelent Systems, we gain additional exposure in the embedded device market."

About TABLETmedia
TABLETmedia's iFon™ application software for wireless devices enables enterprises to extend their corporate telephone systems and deploy previously unfeasible mobile video applications, such as remote surveillance, field support and training. For more information, visit TABLETmedia at http://tabletmedia.com/.

About Accelent Systems

As a leading enabler of embedded devices, independent OMAP^{TM} Technology Center, an Intel$^®$ PCA Developer Network Charter member and Gold-level member of Microsoft's Windows$^®$ Embedded Partner Program, Accelent Systems provides proven solutions for rapidly developing robust Microsoft$^®$ Windows$^®$ CE .NET, Pocket PC, Pocket PC Phone Edition, Smartphone, Intel XScale^{TM} and ARM$^®$ processor based products. With Accelent Systems' software, development platforms and professional services, Accelent Systems provides customers with a means to expedite time-to-market at less cost and risk than traditional development methods.
